

**What has been changed on the NVR IT System in January 2015?**

Over the last few months, we have been working with the BSIR to make some enhancements to the lower limb angioplasty dataset. The changes mainly relate to the way that procedural related information is captured, especially when more than one artery is treated within the leg.

**Angioplasty**

- For each artery location where an angioplasty or stent has been place, two further questions will require answering: lesion and outcome.
- The answer options for lesion are: occlusion ≥ 10cm, occlusion < 10cm, stenosis.
- The answer options for outcome are: success, residual stenosis, failure.

**Angioplasty**

	Angioplasty	Stent	Lesion	Outcome
Aorta	<input type="checkbox"/>	<input type="checkbox"/>		
<b>Right Leg</b>				<a href="#">Show Image</a>
	Angioplasty	Stent	Lesion	Outcome
Common Iliac	<input type="checkbox"/>	<input type="checkbox"/>		
External Iliac	<input type="checkbox"/>	<input type="checkbox"/>		
Common Femoral	<input type="checkbox"/>	<input type="checkbox"/>		
Profunda Femoral	<input type="checkbox"/>	<input type="checkbox"/>		
Superficial Femoral	<input type="checkbox"/>	<input type="checkbox"/>		
Popliteal	<input type="checkbox"/>	<input type="checkbox"/>		
Tibial/Pedal	<input type="checkbox"/>	<input type="checkbox"/>		
Within Bypass Graft	<input type="checkbox"/>	<input type="checkbox"/>		
<b>Left Leg (Indicated)</b>				<a href="#">Show Image</a>
	Angioplasty	Stent	Lesion	Outcome
Common Iliac	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Occlusion < 10cm	Please Select...
External Iliac	<input type="checkbox"/>	<input type="checkbox"/>		Please Select...
Common Femoral	<input type="checkbox"/>	<input type="checkbox"/>		Success
Profunda Femoral	<input type="checkbox"/>	<input type="checkbox"/>		Residual Stenosis
Superficial Femoral	<input type="checkbox"/>	<input type="checkbox"/>		Failure
Popliteal	<input type="checkbox"/>	<input type="checkbox"/>		
Tibial/Pedal	<input type="checkbox"/>	<input type="checkbox"/>		
Within Bypass Graft	<input type="checkbox"/>	<input type="checkbox"/>		

- A new question has been added to the post-operative section: number of vessels with continuous run-off to foot. This question should be answered for either the right leg, left leg or both, depending on where any angioplasties or stents have been placed. The question has four selectable answer options: 0, 1, >1, not imaged.
- A new answer option has been added to the 'destination after procedure' question: day case unit.
- A new answer option has been added to the 'further unplanned lower limb procedure' question: thrombolysis.
